### CONTEST ON FOR STATE PRESIDENT

Governor Pinchot And Gen. Smedley D. Butler To Review Parade

(International News Service)  
PITTSBURGH, Aug. 18.—Greeted by a flag-bedecked city, 15,000 delegates were on hand today for the formal opening of the three-day annual convention of the American Legion, Pennsylvania Department.

Principal discussions were expected to center about prohibition, the bonus and adjusted compensation at the early sessions.

Advance reservations indicate the convocation will attract from 50,000 to 60,000 visitors, which would make the present gathering the largest in the history of the state division.

Elections in the main body and auxiliary doubtless will be closely watched affairs. Three candidates have entered the field for state president of the women's organization. They are Mrs. W. J. Lloyd, Uniontown; Mrs. Louise Conrad, Hanover, and Mrs. Erm Beadle, Shamokin. Elections by this group are scheduled for Friday afternoon.

The adoption of an amendment to the constitution of the auxiliary providing for reduction of the president's term from two years to one year and voiding a present rule which permits a holder of this office to succeed herself, will be sought.

Governor Gifford Pinchot and General Smedley D. Butler will review Saturday's six-hour parade, in which 200 groups from all parts of the tri-state region will take part, it was announced from headquarters.

Picnics, river excursions and contests of athletic and other nature will be staged over the three-day entertainment program.

### PA NEW OBSERVES

On the counter of the business office today there reposes a large vegetable that looks like a squash, but it is a vegetable spaghetti, and when cooked for half an hour and cut open, there is your spaghetti dinner all ready. The vegetable was grown by J. A. Perry of Boardman, O., a former resident of North Mercer street, and is the largest one ever grown in Ohio, being twenty inches long and weighing 11½ pounds.

Some consternation must have occurred in a certain North Hill district recently when the daughter of a prominent resident let their pet canary out of the cage and the aforesaid resident chased down the street in his pajamas, holding the bird cage in his hands trying to coax the bird back in. He was eventually successful.

The day of the horse is surely doomed, for today as Pa New was crossing North street at Jefferson, a group of Amish people drove past in a big sedan, and when this group of people began riding in automobiles, the horse might as well take to the fields for a well earned rest.

### REPORT PICCARD HAS LANDED HIS BALLOON

(BULLETIN)  
(International News Service)  
LONDON, Aug. 18.—Professor Auguste Piccard landed his Stratosphere balloon at Edolo, Province of Brescia, Italy, this afternoon, according to a Central News Dispatch from Zurich. Edolo is a small city approximately 50 miles north of Brescia, capital of the Province of the same name.

Professor Piccard was previously reported sighted over Venice and Verona, Italy. If these reports were true, indications were that the

Stratosphere balloon was buffeted about by the wind while professor Piccard was attempting to find a spot for a safe landing.

Rome, Aug. 18.—A report that Professor Auguste Piccard had landed his Stratosphere balloon at Edolo, Italy, was received here this afternoon. Italian authorities immediately attempted to obtain confirmation.

Professor Piccard previously had messaged the Italian airforce that he was over the Austrian dolomites at 4:50 p. m. (11:50 a. m. E. D. T.)

### Railroads Granted Important Rights By Court Decision

Inauguration Of Full "Door-To-Door" Freight Service Is Granted

Decision Is Victory For Roads In Most Important Battle Of Years

(International News Service)  
PHILADELPHIA, Aug. 18.—The path was cleared today for inauguration of full "door-to-door" freight service by the Pennsylvania railroad and other roads that so desire, as a result of a far-reaching decision, handed down in United States district court here by Judge George E. Welsh.

The decision meant victory for the Pennsylvania and other eastern trunk lines in one of the most important legal battles in recent years. Holding that such service would not constitute "extension of lines," the ruling was a death blow to terminal companies. Four of them, representing \$200,000,000 investment in Brooklyn, and backed by other companies with \$200,000,000 investment, had sought an injunction against the Pennsylvania's plan.

The new freight service plan will go into effect as soon as the railroads can conform to the requirements of the interstate commerce commission regulations. The matter, however, may be reopened after the Pennsylvania and other railroads file their tariff of rates with the commission, but Judge Welsh ruled in his decision that the use of motor trucks by the railroads for the collection and delivery of freight in the New York districts does not constitute an "abandonment and an extension of their lines," as was the contention of the Brooklyn terminal companies in seeking an injunction.

Under the new service trucks owned and operated by the railroad will pick up goods at the factory or store of the shipper and deliver them by truck to the door of the receiver.

### Curtis Informed Of Nomination By Senator Dickinson

Vice President Curtis Is Notified Formally Of His Nomination At Chicago

(International News Service)  
TOPEKA, Kas., Aug. 18.—The address today of Senator L. J. Dickinson of Iowa, notifying Vice President Charles Curtis of his re-nomination by the Republican party, follows in part:

Recently a duly authorized convention of Republican delegates from 48 states of this union was held in Chicago. Many minds represented one view of party policy and many another. It was well that the various delegates could thus represent the different economic interests of their respective states.

In their views was reflected the economic chaos of the day. Naturally many will blame the administration in power. It has always been thus. Complaints have been discussed and analyzed. A program was organized to meet the needs of the day. In constructive help such action is unparalleled in the history of time.

HARRISBURG, Aug. 18.—Accused by Gov. Gifford Pinchot of plotting a "white wash", the state senate today made ready to adopt the resolution of Senator William S. Rial, Westmoreland, for a sweeping investigation of the public service commission and its relations with the public utilities.

In a wrathful denunciation of the resolution and the state Republican organization, the governor served notice that cooperation of his administration is "utterly impossible". He declared Attorney General William A. Schnader must direct the probe or absent himself entirely from the picture.

It was reported the governor might wash his hands of the proposed inquiry and as a party gesture of disapproval.

MIAMI, Fla., Aug. 18.—I am writing this from the home of James M. Carson who brought me here with him for a few days' rest. To my many friends across the seas living under the old British flag I would like to say that I owe my complete vindication to two American gentlemen, my attorneys, Mr. Carson and Mr. Lathrop, who, although I have been unable to provide them with funds, were untiring in their efforts from the very beginning.

The verdict of the jury proves that one does not have to be an American citizen to get a fair trial in American courts.

I have been and am surprised and gratified at the manifestations of popular approval of the verdict which began with the spontaneous outburst in the courtroom and which have continued by telephone and telegraph ever since.

### Call Is Issued For Highway Workers To Report Next Monday

Actual operation of the new "highway work for jobless" relief plan, introduced here last week, will commence on Monday morning, August 22, with 33 family men called for the first six-day period of road service.

This news came today from Robert L. Meermans, superintendent for the state's local cooperative employment bureau at the Y. M. C. A., directing the registration and employment of men. District Highway Superintendent H. W. Lightner had authorized the call.

Continue Registration.  
Over 1,400 unemployed men had signed up at the Y registration office today, the announcement said. It is being continued.

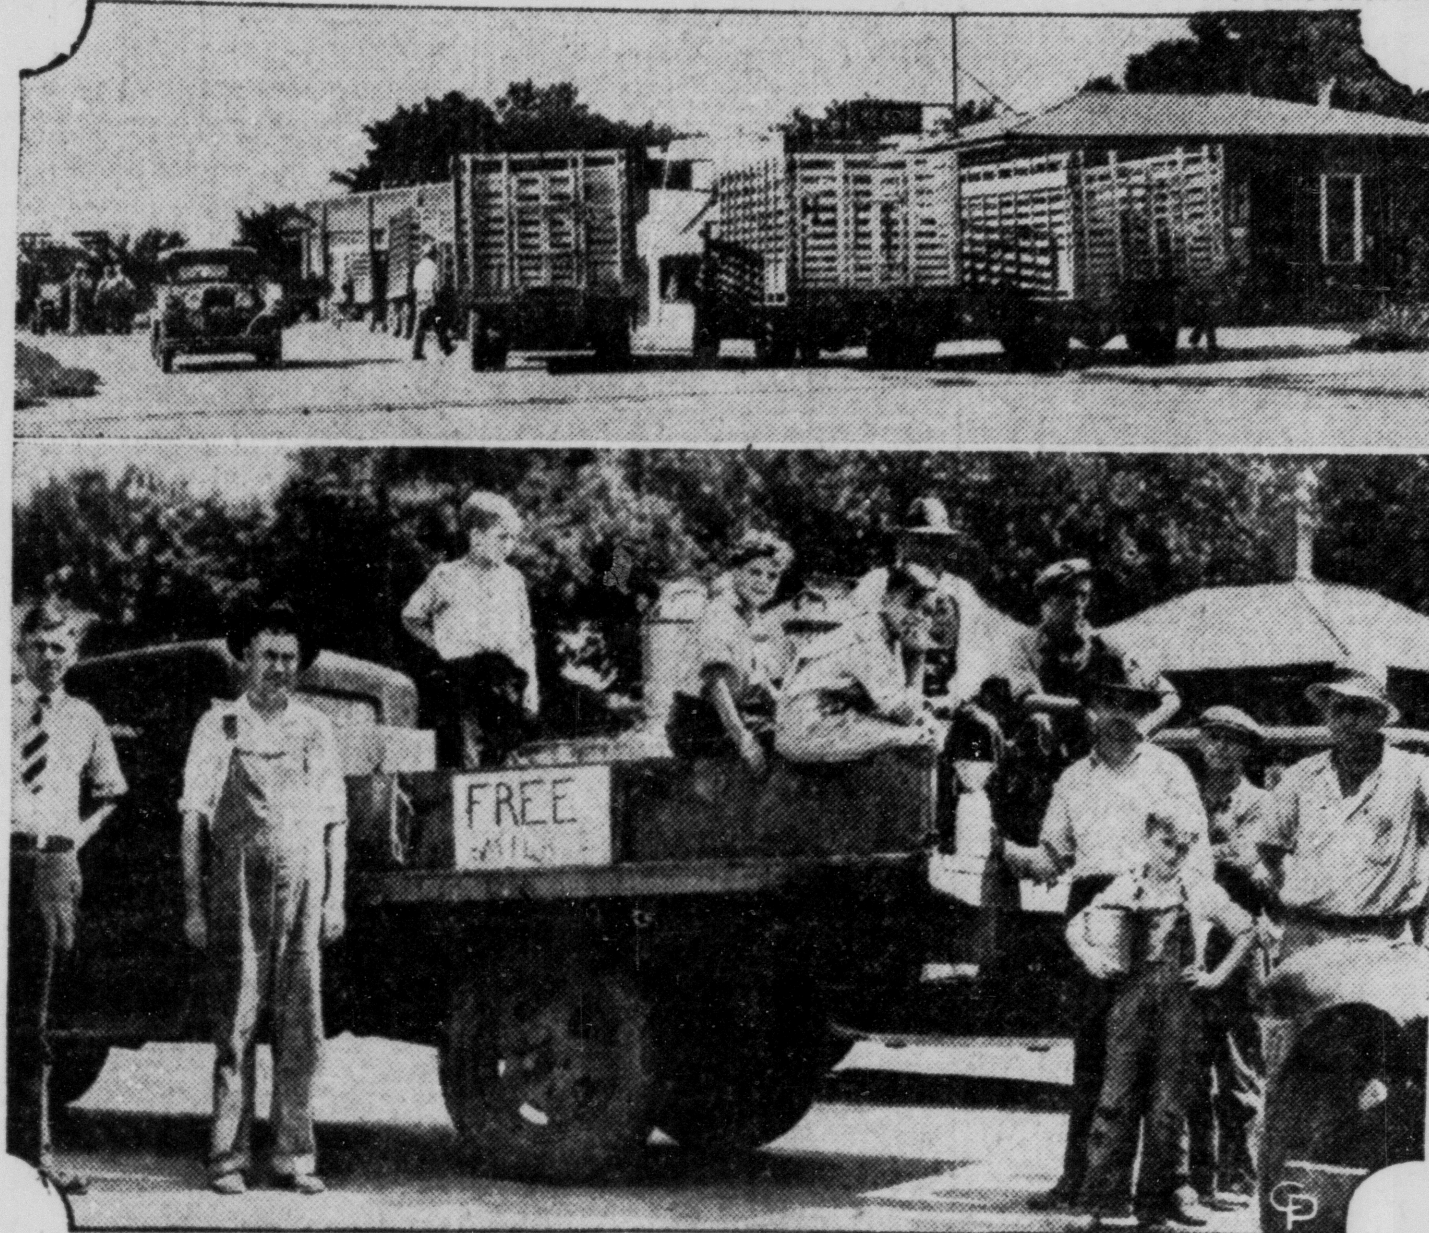

Under the workings of the new plan, men called for road duty must report to their assigned foreman in time Monday to start working at 7:30 a. m., fast time. Any who find themselves unable to appear should communicate with the Y office, Bell 215.

The roads on which the men will work are the Coalton-New Wilmington and New Bedford-Pulaski routes, recently selected by the state as a part of the additions to its secondary route plan.

"Not one of these men whom we've called for Monday claims less than four dependents, and some have been out of work a long time. It certainly will help them," Meermans said.

### WILL ROGERS says:

(Special To The News)  
BEVERLY HILLS, Cal., Aug. 18.—Things are picking up politically. Mr. Hoover caught a fish three feet long. As the last two presidents seem to be judged as much by their fishing as any other accomplishment, why it's funny we don't nominate one of those "whaling" captains and get a real fisherman in the white house.

Just think of the relief of a movie audience looking at a weekly, "President Gustavus Svenson landing a 200-ton whale, it looks like whale oil will replace banana oil in public office."

I have read all presidential speeches on both sides up to now and the winner is the man smart enough to not make any more. There is a great chance for a "silent" third party.

Will Be Subject Of A Commission

Man Held Since The Finding Of Unknown Dead Youth In P. & L. E. Car

Paul G. Schott of Allison Park, Allegheny county, Pa., who has been detained here in the county jail since the finding of the crushed body of the unknown man in a P. & L. E. car at New Castle Junction last Sunday morning, because of the fact that he was the only person in the car with the youth who was killed, is to be the subject of a commission to examine into his mental condition, County Welfare Officer M. B. Hogue announced today. It was planned to have the commission appointed to examine him some time this afternoon.

Since being held here his people from Allegheny county have visited him and the county authorities and desired that something be done, as he is a veteran of the World war and was gassed and was on parole from a government hospital in Washington, D. C., due to his mental condition. His parole has expired and it is necessary to act in the manner being done here because of that fact in order that he may receive the proper care.

PITTSBURGH, Aug. 18.—Regina Farina, 19, mother of a two-weeks old son was dead today while her husband, Lindsay Farina, 24, was confined to Mercy hospital under police guard, facing a murder charge.

With her baby in her arms, the young wife, police said, was stabbed to death with a butcher knife outside her home by her husband when she refused to listen to his pleas for a reconciliation. Friends say the couple became estranged several weeks ago after constant quarreling, and remained apart during the birth.

Farina broke his leg when he dropped over a high boulevard wall near the scene of the tragedy in his attempt to flee. Passing motorists were ordered by police to remove him to the hospital. An examination showed the child was uninjured when the mother was borne to the ground.

HARRISBURG, Aug. 18.—Its path to relief clear of barriers after an eight weeks' siege, Pennsylvania's assembly eased along in the home stretch today, marking time for the most part in order to satisfy constitutional requirements.

The senate was to move the one per cent general sales tax bill forward another step today, hand in hand with the \$12,000,000 Talbot relief bill.

## Feeling Intense In Strike Zone

Illinois National Guard  
Awaiting Call To Scene  
Of Recent Disorder

## SIX ARMY PLANES TAKE OBSERVATIONS

(International News Service)  
SPRINGFIELD, Ill., Aug. 18.—Zero hour descended upon the strife-ridden coal fields of Southern Illinois today.

Amid an atmosphere of high tension an embattled army of striking miners gathered here from all directions for the heralded advance on Taylorville.

Taylorville was ready to throw back the invasion. All principal highways thrusting into that community were heavily barricaded. Patrols of a "home guard", 1500 strong, defended the roads.

Prepared to deal swiftly with any emergency, the Illinois National Guard in summer encampment near Rockford awaited the call which would send troops to the scene of disorder.

Bitter feeling between the opposing forces was intensified by the first bloodshed of the mine warfare, the assassination of Joseph Colbert, union official.

Colbert, secretary of the miners' local at Orient, Ill., lay dead in a West Frankfort undertaking parlor where the coroner made ready to conduct an inquest today. He was killed by a shotgun blast from an automobile which drew up to his home. One suspect, whose name was withheld by authorities, was in jail for questioning.

Colbert was a staunch leader in the "rebel" movement against the new five dollar a day basic wage scale recently declared in effect by John L. Lewis, International President of the United Mine Workers of America, and district officials of the organization.

**Take Observation**  
Camp Grant, Rockford, Ill., Aug. 18.—Six army planes equipped with machine guns left here early today to make observations of conditions in the Southern Illinois coal mine district, where violence is threatened in mine labor disorders.

Brig. Gen. Thomas Hammond and Lieut. Col. Robert Davis of the 13th Infantry were among those on the trip. They will report back to Maj. Gen. Roy D. Keene.

## PILES

Ended Without Cutting or Salves

If you think a surgical operation is the only way to get rid of itching, bleeding or protruding Piles, it's because you haven't heard of the harmless internal medicine discovered by a prominent western physician.

After years of study, Dr. J. S. Leonard found the cause of Piles to be internal congestion of blood in the lower bowel—the hemorrhoidal veins flabby; the bowel walls weak; the parts almost dead. Right away the doctor set to work to find a real internal remedy. He succeeded, and after prescribing it for 1000 patients, with success in over 900 cases, he named his prescription HEM-ROID.

The doctor wants every Pile sufferer to benefit by his discovery, and so there will be no doubt of delay. Eckerd's Cut Rate and New Castle Drug Co., and druggists everywhere are authorized to sell HEM-ROID with guarantee of money-back if it does not end Piles in any form.

So why waste time on external treatments or think of an operation when HEM-ROID tablets are guaranteed.

county poor districts during the six months' operating period of the sales tax, starting September 1. The measure previously called for \$1,500,000 monthly for eight months.

Another amendment incorporates in the Talbot bill the provisions of the Woodward senate bill creating an emergency relief board to administer relief funds. The board includes the governor, the lieutenant governor, the speaker of the house, state treasurer and auditor general.

The 1931 Talbot act gave the welfare department the power to authorize payments to counties. The new Talbot act gives this power to the board.

Gov. Gifford Pinchot yesterday signed the joint resolution passed by the assembly, ratifying the proposed "lame duck" amendment to the federal constitution.

The amendment eliminates the "lame duck" session of congress and moves the presidential inauguration date from March 4 to January 20.

applause and cries of "attaboy, Mayor," shook the Nixon Theater today as delegates to the annual convention of the Pennsylvania department, American Legion, greeted the go-the-limit salutation of Mayor Charles H. Kline.

With a wide grin on his face Mayor Kline proclaimed: "There is no restraint on members of the Legion during these three days."

George P. Proehl, state commander, presided at the first business session, which brought the official greeting from the mayor and felicitations from former Governor John S. Fisher. In a ringing appeal the former executive declared:

"We are face to face with a condition—not a theory. There is no denying we are under trying circumstances today.

"But the courage that led you to victory in war cannot permit you to admit being licked today. I hope your presence here will serve to give us courage."

Thomas A. Dunn, president of the Chamber of Commerce, also bade the Legion "welcome and a good time" in a brief address.

## PINCHOT-SENATE ARE AT ODDS ON PROPOSED PROBE

pleasure veto the \$100,000 appropriation voted by the house to prosecute the investigation.

"If any additional proof was needed to show that the senate and the Republican state organization have been forced to investigate against their will, and intend to 'whitewash' of them can, this (Rial) resolution proves it to the hilt," the governor charged.

He deeply resented the action of the house appropriations committee in refusing to delete the preamble of the Rial resolution which charged the governor with "killing" public utility regulatory legislation adopted at the 1931 session of the legislature.

Despite the charges and repeated outbursts of the governor, organization leaders have made it clear that the senate will retain control of the probe to be conducted by a committee of seven senators. The governor and the house must also approve the resolution.

**Attack Not Warranted.**  
"The gratuitous and unjustified attack on this administration contained in the Rial resolution is utterly unworthy of the senate and of the state Republican organization from which it sprang," the governor asserted, terming the Rial preamble a "needless, churlish, unjustified slur."

Governor Pinchot reviewed in detail his assertions that the administration has in the past cooperated wholeheartedly with the senate in presenting charges against W. D. B. Ainey, the invalid chairman, who resigned under fire, and requesting the resignation of Commissioner Emerson Collins, incapacitated by illness.

"Without the attorney general, the past investigation of the Ainey charges would have been a complete failure. Without him in the proposed investigation the people will not be represented," he asserted.

The governor told the senate he would refuse to allow Attorney General Schnader to be "second fiddle to a private lawyer" which the investigation committee will be empowered to retain.

Reports that Governor Pinchot would seek an investigation from the house with Attorney General Schnader as the moving light brought no confirmation from the chief executive.

**Resolution Passes.**  
HARRISBURG, Aug. 18.—Without a single dissenting vote, the senate today passed the Rial resolution which authorizes a committee of that body to probe the charges made by Gov. Gifford Pinchot against the Public Service Commission.

The adoption was on a viva voce vote, a chorus of "ayes" answering the motion.

## ONE WOMAN tells another...

Women are good judges of value. And they're not easily fooled. They know the difference between "cheap" things and a worth while article at a low price.

That's why so many women of this community come here for jewelry, watches and silverware of the finer kind. Their good judgment tells them that they get more for their money.

Drop in yourself some day—then pass the good word along to your friends.

## RECUPERATION

**P**ESSIMISM as a permanent mood is alien to the American temperament. The people of the United States have a good deal of the buoyancy and quick recuperative power of youth. If they are easily thrown into a panic by economic and financial reverses, it is equally true that their confidence is easily restored. And the restoration of national confidence will have more to do with the return to national prosperity than anything the government might do.

The country is "snapping out" of its pessimistic mood of the last three years. The bond market shows it. The farm belt feels it, and the people everywhere are catching the new spirit.

For very good reasons are the farmers happier. In the last six weeks rising commodity prices have increased the wealth of Iowa farmers alone by \$30,000,000. When cattle prices reach the top price for the year in mid-summer and the egg price on the farm doubles there is good cause for three cheers, if not four.

If anything is established about the world-wide depression it is that it is fundamentally due to the abnormal fall of commodity prices. Which means that the most important indication of recovery must be sought in rising commodity prices.

Rising farm prices mean an increase in buying power at the base of the economic structure the effects of which will be felt in every stratum.

## FEELING OLD

It isn't a case of, "Cheer up!" You'll live to be a hundred, as it is of cheer up and live to be a hundred, according to a new theory of life expounded by Prof. Walter R. Miles, of Sanford University.

He reasons that deterioration in old people is not due chiefly to any inevitable defect in the bodily machinery, but appears more in feeling than it exists in fact. The slowing down of the activities of aged persons is attributed to a psychological defensive measure.

There may be something in the thought that this slower pace after middle life is a concession to opinion and an effect of tradition. The aging person so frequently is told he is getting old and must slow down that he obeys as bowing to the inevitable. In like manner probably many succumb to ailments which they might resist were they not induced by their frame of mind to accept them as necessary and invincible enemies. It is quite possible that the age limit might be considerably extended were it not for the age-old tradition that man's allotted span is three score years and ten.

Even though this novel and hopeful theory may not be biologically true it will prove useful if it gives the old crank and misanthrope a new and more optimistic outlook on life. They may not live longer but they will live happier and make the world a better place in which to live.

## CHAUTAUQUA'S ADIEU

Like the tent show, the medicine show and the barnstorming theatrical troupes, all of which once flourished throughout the United States, the chautauqua is passing out of the picture in rural America. Its end was foretold 15 years ago.

With the passing this year of another and one of the largest chautauqs of the East, the section witnessed the last struggles of a vast institution that for the better part of half a century played a major role in the development of rural and semi-rural America. Only in those vast, sparsely settled regions between the Missouri River and the Sierra Nevada will chautauqs pitch their tents this year.

Radio, moving pictures, automobiles and good roads robbed the chautauqua of its following. It ceased to be profitable or even self-supporting when it ceased to be rural and small-town America's principal source of platform entertainment and information.

There was a time when chautauqua week was the biggest event of the year. It ranked even higher than circus day and revival week as a community affair and drew eager patrons from the surrounding countryside. As such it performed a valuable service, giving the non-urban millions essentials in no other way.

Though unmentioned the chautauqua is not unappreciated. The nation will long remember its debt to the Swiss bell ringers, the lecturers on optimism and service, the players and the magicians who did their spellbinding under chautauqua canvas.

Gresham's Law  
Bad Drives Out Good  
"Pity 'Tis, 'Tis True"

By MARSHALL MASLIN

Know anything about Gresham's law?

They teach it in school, in courses in elementary economics, and I remember how I used to puzzle my head over it. It was easier to understand than the gold standard and foreign exchange and things like the law of diminishing returns, but I had trouble with it, just the same.

Thomas Gresham lived in Queen Elizabeth's time, and she made him a knight. . . . He noticed that bad money drives out good money. If you have a sound money circulation in your country, money that everybody trusts and accepts as a standard and undervalued money, very soon you discover that the good money has run to cover and the bad money is doing most of the circulating.

That shouldn't happen, but it does happen. The money that nobody trusts takes the place of the money that everybody trusts. . . . It is not good, everybody knows it isn't, but the good money goes into hiding, into crooks and tin cans and jars, and the bad money brazenly circulates and prices go sky-high and trouble comes upon you. It doesn't sound reasonable, but it's a fact. And it's called Gresham's law.

I know it's a fact, because that law doesn't operate solely in the field of economics. . . . You've seen it operating perfectly during these last few years. You've seen a timid, distrustful, fearful man communicating his weakness to men who are naturally distrustful and bold. You've seen pessimism driving the optimistic life forces to cover. You've seen greed, perhaps, displacing generosity in some human hearts and bitter envy more powerful than sweet content. . . . That's Gresham's law, operating in human beings who never heard of it and never studied economics.

Because money is not the only currency we have. We live by other values, too. By strength, by patience, by courage, by endurance and flaming imagination and glowing belief. . . . And when we take the currency of weakness and cowardice and gnawing suspicion, they drive out the other values by which men must live. . . . I have seen this happening. Haven't you.

### AT HOME

You raise much objection to certain noises in your home and state viciously that they unnerve you. The children's mechanical toys drive you to madness.

You think they should be operated only in your absence.

It requires very little to irritate you in your home.

Isn't it because you make no effort to control yourself?

Where you are employed annoying things occur but you go ahead with your work just the same because you must, or lose your job.

If you used only a small part of the effort you exert at control during business hours, when you reach home, you would not be heard grumbling at home.

You are right in asking for quiet in your home when you want to rest, but if you think that the family should tip toe around and be noiseless in everything they do while you are at home you are demanding too much.

If you want to be welcome in your own home, don't ask the family to make too many changes in their regular routine.

To have to be on guard all the time is as irksome to your wife and children as it would be to you if it were required of you.

You don't want them to prefer your absence, do you?

"Wall, minster," said the native, "all I can tell you is that a little way back they turned off the water supply for a week and nobody knew it till the town hall caught fire."

## Spirit Of Arms Conference Believed To Promise Gains

American Delegates Return With Reports Which Lead Public To Believe Session Next Year Will Reach Some Agreements

Statements of delegates of this country upon their return from the conference at Geneva lead the public to believe that while no agreement was reached on the reduction of armaments, a spirit of cooperation and good-will was fostered which will produce important concessions when the meeting convenes in January of next year. The delegates were Senator Swanson of Virginia, former Assistant Secretary of the Treasury, Norman H. Davis, and Dr. Mary E. Woolley, president of Mount Holyoke College. "The conference may not outwardly have accomplished a great deal," says the CLEVELAND NEWS, "but it has set the stage for the great test of courage which is to come when the meetings are resumed next year." The NEWS recognizes that it "has labored under a handicap, the strained situation in the Orient presenting a mental hazard hard to overcome," but holds that "the proposals for real disarmament advanced by those who are in earnest about the whole thing have set the nations to thinking along new lines." The CHARLESTON (W. Va.) DAILY MAIL declares that "the China-Japanese controversy was the only one of many unfavorable factors that delayed and otherwise affected the conference" and that "three changes in France, two in Germany, and a change just before adjournment in Italy were others." That paper advises that "the prospect that the next sitting will achieve worthwhile results is far from hopeless."

Recording that "the delegates have returned home with the distinct impression that at least part of President Hoover's suggestions for limiting and reducing armies and navies will be adopted within a short time," the SAN ANTONIO EXPRESS observes that, in the words of Senator Swanson, "the conference approved the president's plan in principle, and pledged itself to work for a considerable reduction in air, land and sea armaments." The EXPRESS also points to Dr. Woolley's statement that "the several delegations showed good will and sincerity," and her belief that "if the nations would follow their Geneva representatives' example, the problem would be solved." The conclusion of that paper is that "the statesmen are looking forward to the international economic conference at London, and are hoping for beneficial results," though it finds that remarks by Mussolini in criticism of permanent peace are likely to arouse some Europeans.

Messrs. Swanson and Davis are quoted by the CHICAGO DAILY NEWS as of the opinion that "the disappointing resolution adopted by the conference in the hour of adjournment represented the position reached by the last straggler, not that of the conference leaders." That paper adds that "they find encouragement, and reasonably, in the fact that those who opposed the resolution did so only because it fell short of the mark," while "it was supported as a compromise by others who were no less eager to go farther." The DAILY NEWS concludes: "So hopeful an interpretation is strong encouragement for continued effort to build a compelling public sentiment behind the Hoover disarmament proposals." The PORT HURON TIMES-HERALD believes that when the conference reassembles, "we may reasonably expect to see something practical done in the direction of actual disarmament."

The LOUISVILLE COURIER-JOURNAL concludes that "Mr. Davis strikes the keynote of a fair-minded attitude toward the conference when he points out the magnitude of the task which that meeting set itself." The LEXINGTON LEADER avers: "It is an unprecedented thing that such a conference should be held. It is vastly encouraging that the work has been carried on in an atmosphere of good will, of cordial collaboration and of open-minded discussion."

The WASHINGTON EVENING STAR feels that "the conference adjourned with little accomplishment to its credit, except a pious resolution to resume in January, 1933, where it left off in midsummer of 1932."

The RICHMOND NEWS-LEADER is convinced that "on neither side of the Rhine is there, as yet, the state of mind that must precede any real reduction in arms."

According to the BALTIMORE SUN, "of the fact that at Geneva the governments of the world pledged themselves to 'the principles of a real, a strict, a substantial reduction of their armaments and are agreed that they shall, without further delay, enter upon active negotiations materially to implement this principle.' Neither seems at all downhearted over the fact that the delegates assembled at Geneva were pledged to this principle in the first instance and that five months of continuous endeavor failed to result in any agreement to implement it except in the most inconspicuous fashion." The YAKIMA DAILY REPUBLIC warns that "it would be well to remember the naval agreement, to nation reduced except the United States." The SPRINGFIELD (MASS.) UNION offers the comment: "One result of the long deliberations of the conference may at least be very helpful in convincing American people that general disarmament cannot be accomplished by representatives of the United States merely telling those of European governments what they should do. Many have too lightly assumed that, if an earnest American delegation went to Geneva and told the other delegations what American men and women wanted, disarmament would be easily and quickly brought about. Probably the American delegates did not go to Geneva with that illusion. If they did, it must have been soon dispelled."

## The World AND THE Mud Puddles

IT IS PAID.

Lawrence Washington, the great, great, great grandfather of George Washington, was an Englishman and attended Brasenose College, Oxford University, England, more than three hundred years ago.

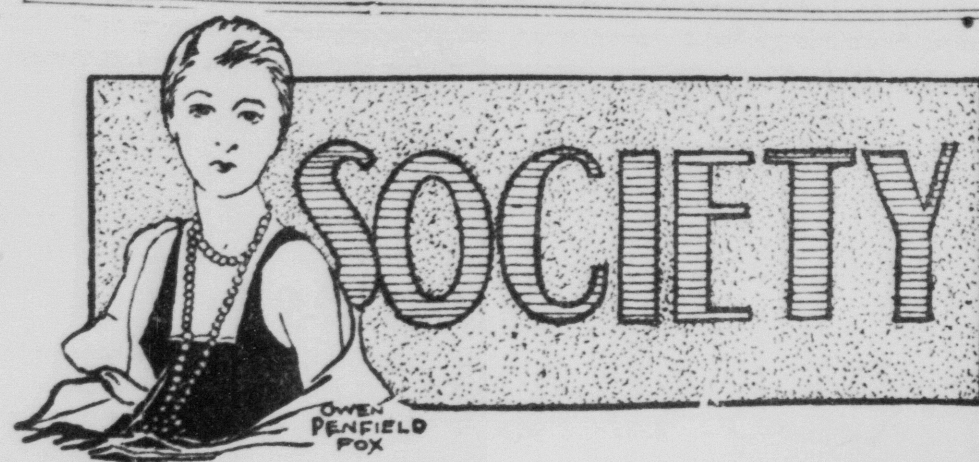

When he left the college in 1623, Oxford owed him a debt of 17 shillings 10 pence. The debt remained unpaid for three centuries, though the college authorities made efforts to collect the money.

The climax came, however, in 1924, when members of the American Bar Association, on a visit in Oxford, learned the facts. After holding solemn convocations, they subscribed between them a sum sufficient to pay the debt so long outstanding. No interest was charged.

### Once Crippled with Rheumatism

Now A Lively, Spirited Woman Happy, Cheerful and Gay

What A Victory For HER—and For Allenru

It's the bright woman who never gives up—she makes up her mind that rheumatic pain and agony isn't going to cause her a lifetime of misery and unhappiness.

Blessed with common sense, this woman didn't waste but little time fooling with makeshift remedies which bring relief; to be sure—but still keep you prisoner in the old arm chair—what foolishness.

Clever, this woman was—she learned that uric acid is a poison—that it settles deep in joints and muscles—she learned that these vicious deep seated deposits were the cause of her rheumatic agony and she found something—

### TO REMOVE THE CAUSE

She read about Allenru in the newspaper—This quick acting prescription she learned was guaranteed to start uric acid poison leaving the body in 24 hours—her hope increased as she read further that Allenru would cause pain, agony, distress and swelling to leave in 48 hours—

Keen minded she was—she knew that Allenru was the remedy she wanted and she purchased one 35 cent bottle—her story ends here.

When poisonous uric acid left her joints and muscles she was happy once more—lively, active, cheerful again.

Eckerd's of New Castle, Inc., dispenses Allenru—so do leading druggists everywhere.

## Find Descriptive Booklet Of City Issued Years Ago

Many Who Were Active In Affairs In 1904 Have Since Passed Away

Among the interesting relics of earlier days sent to The News by the Manufacturers Light and Heat Company is a copy of the New York Industrial Recorder, which gives an illustrated description of industries, and places of interest in New Castle and vicinity. The booklet, which is profusely illustrated was issued in 1904 under the auspices of the New Castle Chamber of Commerce.

The committee on publicity consisted of Dr. L. O. Phillips, chairman; Fred L. Rentz, William J. Eroe, Marcus Feuchtwanger and William H. Chambers.

C. J. Kirk was president of the Chamber of Commerce at that time and the other directors were David Jameson, W. Scott Paisley, John W. Knox, George L. Patterson, A. D. Newell, George Greer, H. P. McIlwraith, J. J. Dean, J. A. Chambers, secretary; T. F. Morehead, treasurer; J. W. Hamilton, E. F. Norris, William M. Brown and George D. Blair.

Like many others mentioned in the booklet, a majority of these men who were directors then, have since passed away.

John C. Jackson, deceased, was mayor of the city.

A group photograph, containing the editorial and executive staff of The News is pictured. Fred L. Rentz was general manager then, with George W. Shaw, editor and William L. Aiken, city editor. Jacob Cox was foreman of the composing room, John W. White, telegraph editor and Charles C. Cutch-

shaw, Miss Elvora Zerner, Miss Sarah Dana Falls and Samuel A. Wintertiz reporters.

Many people of today feel discouraged over the industrial outlook, but a perusal of the list of industries which flourished here then, shows a great number now defunct. Among them was the Vulcan Foundry and Machine Co., Lawrence Co. Lumber Co., New Castle Forge and Bolt Co., Atlantic Iron Works, New Castle Stamping Co., Bauman Manufacturing Co., Acme Lumber Co., Croton Limestone and Brick Co., Galley Piber Plaster Co., New Castle Elastic Pulp Plaster Co., New Castle Brewing Co., New Castle Paint and Varnish Co., New Castle Asphalt Co., New Castle Mattress Factory, Shenango Roller Mills, Standard Wire Co., Shenango Lumber Co., and other smaller concerns.

## Glenn's Pool Has Highest Rating

Tests of the water in Glenn's bathing pool at Cascade Park by H. C. Kneeland, water analyst and bacteriologist made recently, show that the water in the pool is of the highest sanitary quality.

The bacteriological examination showed a bacteria content of but 12 per cubic centimeter at a temperature of 37.5 degrees Fahrenheit, a content of 100 being permissible under state regulations.

No bacteria coli was found in 10 cubic centimeters of water, and a slight turbidity or discoloration was found, this being due to the fact that the water is taken directly from Big Run, which in itself is a clean stream.

## HOSKINS QUOTED IN POTTSVILLE PAPER

New Castle's assistant city engineer, Harry G. Hoskins, attending the Pottsville convention of the League of Third Class Cities, was quoted by the Pottsville Evening Republican in yesterday's issue on a congratulatory statement concerning the host city.

His words didn't fail to boost New Castle.

## 323rd Artillery Plans Reunion

Members Will Hold Annual Gathering In Pittsburgh On Sunday

The 323rd Light Field Artillery 83rd and 32nd Division will hold its 8th annual reunion Saturday, August 20th, 1932, at the Fort Pitt Hotel, Pittsburgh, Pa., in conjunction with the Pennsylvania State American Legion Convention. Colonels, Majors, Captains, First Lieutenants, and Top Kicks have registered with the committee that they will be in the front lines when the registration begins Saturday morning at 9:00 a. m.

From all reports this will be one of the largest and best reunions ever held.

The Regiment is working in conjunction with the Pittsburgh convention committee of the American Legion and everyone is assured plenty of entertainment.

The base of this regiment is from Beaver, Butler, Lawrence, Mercer and Washington counties.

Anyone who in any way served with the regiment while in Camp Sherman, Chillicothe, Ohio, or overseas are expected to attend this annual affair. There will be no distinction of rank. They will "hobnob" with each other and no matter what the weather that day is it will be fair weather when these buddies of war time days reunite for the day. They will all fall in and follow the Division insignia The Red Arrow. The Fort Pitt Hotel is planning to handle a large delegation and assures the committee their fullest co-operation. The officers of this regiment are principally from Ohio, New York, Indiana and Kentucky.

Registration will open Saturday morning at 9:00 a. m., in the Norse room of the Hotel.

The business session taking place at 11:00 a. m. in the Norse Room.

At 1:30 p. m. the vets will see and take part with their respective posts in the mammoth parade.

The banquet is slated for 8:30 p. m. in the Tudor Room of the Hotel with toasts and entertainment.

There are a number of New Castle and Lawrence County boys who were members of this World War outfit and who are making plans to attend the reunion Sunday.

## Many Youths Are Out On Parole

MERCER, Pa., Aug. 18.—Rev. W. T. K. Thompson, county parole and probation officer reports more boys in his charge now than any time in ten years.

Boys between the ages of 11 and 25 years charged with larceny for the most part makes up the larger percentage of a parole and probation list of 143 which is the most in a number of several years.

The official states that while his charges do all that is possible in making payment of fines and costs to him that his books show a big balance unpaid.

Very few paroled but do the best they can to play square with the law says Thompson, who is an advocate of the system as a cure of social evils.

## TO MINE COAL FOR GROVE CITY NEEDY

GROVE CITY, Aug. 18.—Free coal will be distributed by the welfare association of Grove City to those living in the borough is the today announcement of officials who have called a meeting of men expecting to mine the surface vein located at Memorial Park for 7:30 p. m. today at the legion club rooms.

This plan carried out last winter was found very successful.

Under the direction of Peter Hay a competent mine foreman over 15,000 tons of coal was mined by unemployed and distributed. The vein runs upwards of half a million tons. The work of last winter puts the community in shape to mine with very little precaution and with very little preparation. Placer mining methods of the gold fields of the west were employed.

## WIFE WAS FAT NO LONGER ATTRACTIVE LOST HUSBAND'S LOVE

The above headlines appeared in a New York newspaper of April 4 in connection with a divorce trial that has attracted wide attention.

"She was a beautiful woman," one witness testified, "but she got fat and is not attractive any more."

Thousands of women are getting fat and losing their appeal just because they do not know what to do.

If you are fat how would you like to lose it and at the same time gain in physical charm and acquire a clean, clear skin and eyes that sparkle with buoyant health?

And gain in energy and activity? Why not do what thousands of women have done to get rid of pounds of unwanted fat? Take one half teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast and keep it up for 30 days. You can help the action of Kruschen by cutting down on pastry, fatty meats and going light on potatoes, butter, cream and sugar. Then weight yourself and see how many pounds you have lost.

Kruschen Salts are a blend of 6 mineral salts most helpful to body health. Best of all, a bottle of Kruschen Salts that will last you for 4 weeks cost but a trifle. Ask Kruschen's Cut Rate, New Castle Drug Co., or any druggist for a bottle and start to lose fat today.

It's the safe way to reduce but be sure you get Kruschen—your health comes first and remember this if you are not joyfully satisfied with results—money back.

### Times Are Bad, Sewer Fails To Bring Forth Gold

City Workmen Cleaning Sewer  
At Foot Of Cochran Way  
Find No Money

Times are indeed bad. City workmen cleaning out the sanitary sewer which flows past the laundry at the foot of Cochran alley, near the Central fire station, found few coins in the sewer, although the yield generally averages around seven or eight dollars.

Last summer, when the sewer was

cleaned out, over seven dollars was found, which had been washed from the pockets of clothing sent to the laundry to be cleaned.

One little colored lad salvaged a dime from the pile of refuse, but for the most part, all that was found in the debris was pins and buttons, a few washers, and metallic objects.

### CIVIL WAR VETS WILL BE GUESTS

All Civil war veterans of the district will be guests of the Sons and daughters of Union Veterans at the outing to be held Friday by those organizations. All these veterans are requested to be at the Sons of Union Veterans hall in the city building not later than 1:30 p. m. Friday to be taken to the scene of activities. They are to bring their own table service.

### Borah Refuses To Discuss Plans For National Dry Party

(International News Service)

BOISE, Idaho, Aug. 18—Efforts to obtain United States Senator William E. Borah's attitude regarding the possibility that he would be a third party candidate for president, met with failure again today.

The dry leader refused to discuss visits of Dr. Clarence True Wilson and Dr. D. Leigh Colvin, chairman of the National Prohibition party, who admitted they were here to induce Borah to lead a Prohibition party ticket.

Economic conditions, not politics, interest me now," was the only comment of Borah, who previously announced he would not support the Republican party because of the semi-wet plank.

PORTSMOUTH AIR-  
DROME, Near Dublin, Aug. 18.—  
Determined to reach New York  
without a stop if his gasoline  
holds out, Captain James A.  
Mollison, veteran Scottish air-  
man, roared out over the At-  
lantic today on the first round-  
trip flight between Europe and  
America ever attempted.  
"I expect to sight Newfoundland  
after 23 hours of flying," Mollison  
told International News Service  
just before the take-off at 11:35 a.  
m. (6:35 a. m. E. D. T.).  
"You'll be hearing from me to-  
morrow morning. If my gasoline  
is not spent by headwinds, I may  
continue on to New York without  
refueling at Newfoundland."British airmen joined in terming  
the double crossing of the ocean  
Mollison outlined for himself the  
most hazardous trans-Atlantic  
flight yet attempted.  
Recently Married  
Miss Amy Johnson, Mollison's  
bride of a few weeks and a noted  
long distance flyer herself, kissed  
the aviator goodbye as he got into  
his ship. She appeared happy,  
showing none of the anxiety she  
had indicated previously when she  
had insisted upon going with him.  
All comforts were sacrificed to  
make way for the 155 gallons of  
gasoline which he carried.  
Coffee and barley sugar were all  
that Mollison took for food and  
drink. He was guided by an illu-  
minated dial of his super compass  
and a radio with which he hoped  
to keep in touch with liners on the  
great circle route beneath him.Mother And Her

# ST. VITUS CHURCH OBSERVES SILVER ANNIVERSARY

## Father DeMita In Charge Here For 25 Years

Parish Numbers 1500 Families And Has Made Remarkable Progress

### CHURCH IS BUILT UNDER PASTORATE

Observance this week by the congregation of St. Vitus church of the twenty-fifth or silver anniversary of the consecration and dedication of the present handsome and spacious church edifice of the parish, is in reality the observance of the culmination of the efforts of man, the pastor, Rev. Fr. N. DeMita, during the past quarter of a century, in elevating the Italian-American population of the community, not only to great spiritual heights but to the point in American citizenship, where they are coming to a full realization of the great heritage that is theirs—American Citizenship.

When Father DeMita came here, it might be said to do his great pioneering work among the people of his native land, Italy, who had come here to reside, he found them without much interest in things spiritual, disorganized, suspicious of their American neighbors, in fact all alone in so far as the community was concerned.

Today, they and their descend-

ants are found in every active civic work, the industrial life and in fact in every phase of the community's life and looked upon with respect and esteem. The efforts of Father

REV. FR. N. De MITA

DeMita have had much to do with this changed situation.

#### Largest In City

St. Vitus parish has the largest congregation in the city. The changes in these years have been due to the leadership of the loved pastor, who not only directed the spiritual life of its members, but was outstanding in his efforts at their Americanization. It has been the constant aim of Father DeMita not only to inculcate a great patriotism for the country that has furnished his people with a home but to retain the proper thought and love for the country from which they or their forebears came.

Today, the parish numbers 1,500 families and approximately 8,000 souls. Father DeMita had been in this country but about a year and a half, during which brief period, he had visited some eighty groups of Italians, in the mine, on the street, or in the church, being probably the first Italian priest with whom they came in contact since leaving their native land. His missionary work among these people located in the Diocese of Pittsburgh, resulted in thirteen new churches, not to mention the thousands of souls that were inspired to renew their interest in the spiritual things that they had first learned in their native land of Italy.

St. Vitus parish had been organized about five years and had been in charge of the Franciscan Fathers during that period, when the Bishop of Pittsburgh found it desirable to transfer Rev. Fr. DeMita from his successful missionary efforts to the local parish. This was on the first Sunday of October, 1905.

The parish church at that time was a small church that had been purchased from the Maitland Memorial Primitive Methodist congregation. It was in need of repairs. Father DeMita found anything but encouragement. There was little interest in the parish work, few people attended church and there was so much that was needed.

#### New Church Built

But the great missionary efforts of Father DeMita prevailed and it was not long until the little church, located on the site of the present church was crowded at all services. It was not long until there was a growing demand among the people for a new church. But ten months after his arrival, the old church had been torn down and on August 15, 1906, the cornerstone of the present edifice was laid. In spite of the fact that about that time, hard times were prevailing, the building of the church went right on and one year after the laying of the cornerstone, the new church, now twenty-five years old, was dedicated and consecrated, on August 15, 1907.

The Rt. Rev. Regis Canevin, the then bishop of the diocese of Pittsburgh, dedicated the church. The ceremonies were attended by twenty priests from here and other points, the Italian societies took an active part as did thousands of Catholic and non-Catholic friends of the parish.

The remarkable progress made by the parish is shown by the fact that when Father DeMita assumed charge, it had but the little old church on which there was a mortgage of \$3,000. Since that has been erected the present splendid church costing \$54,000, the rectory, the convent now used by the Knights of St. Vitus and has in all property valued at \$150,000 and is without a cent of indebtedness. The church has all needed equipment, a pipe organ, fine pews, costly vestments, fine altars.

Rev. Fr. DeMita in the twenty-seven years he has been connected with the parish has baptized 6,770 persons, married 1250 couples and conducted funeral services of 2010 persons.

#### Active Societies

Through his efforts there have been organized a number of very active societies. The oldest consisting of married women of the parish and known as the Mother of Sorrow Sodality has more than three hundred members. Then there is the Children of Mary Sodality for the young ladies with a membership of four hundred; the Children of Hope for younger girls with a membership of 400; the Holy Name Society with four hundred members; the Junior Holy Name Society with three hundred members; the Knights of St. Vitus with 250 members; the Knights of St. Vitus Auxiliary with 150 members; the Social Workers with a hundred members; the L. C. B. A. of the parish and kindred organizations.

Silver anniversary services in commemoration of the quarter of a century of progress have been going on all week, starting Monday or the Feast of the Assumption of the Blessed Virgin Mary. The services are planned so that if possible every member of the parish will attend mass every day and if possible take Holy Communion.

Special prayers are offered to St. Vitus and the Blessed Virgin, the statues of whom are exposed in the church that the worshippers may

pray before them. Thanks of the worshippers are offered for those very happy material successes that have been attained by the congregation and the continued blessing of the members is asked.

While the celebration is essentially spiritual, the pastor has recommended to the members that in the evening, they enjoy themselves at the sixth annual bazaar of the parish being held on South Mill street adjoining the Lawrence Laundry. There is something doing every night for their entertainment, including special fireworks furnished free by the Vitale Fireworks company.

Monday the celebration was in special commemoration of the Assumption of the Blessed Virgin Mary and Tuesday of the Feast of St. Rocco. There will be something doing every night and on Saturday the closing night, there will be a surprise for all. There will also be special Italian music on that night. The bazaar has been made a success by the group of workers of the church under the able leadership of Carm Sacco as general chairman and his assisting chairmen and committeemen.

Assisting him are the following: Tony Marino, Vitus Conti, Jacob DeFonso, Charles DeCarbo, Alex. Natale, Sam Ross and Mrs. Jacob DeFonso and a large group of assisting ladies.

Special broadcasting apparatus has been installed at the bazaar location and these add materially to the enjoyment of those attending.

### BEE STING FAILS TO UPSET LADY DIANA

(International News Service)

LONDON, Aug. 18.—Courage and self-control were exercised by beautiful Lady Diana Manners of the Madonna-like face, when she was stung by a wasp during a performance of "The Miracle."

If you remember "The Miracle", as it was done several years ago at the old Century Theater in New York, you will remember that the "madonna" was obliged to stand rigidly, like a statue, for one hour.

In the London revival of the same play, Lady Diana Manners, obliged to undergo that ordeal every day, was recently stung by a wasp in the most solemn part of the play. Despite the pain, Lady Diana maintained the rigid pose until the end of the act. Then she was treated in her dressing-room.

### GEORGIA WATCHES SENATE FIGHT

Crisp

Russell

With both candidates endorsing the prohibition repeal plank of the Democratic platform, Georgia is watching one of its most vigorous campaigns in years with the veteran Representative Charles R. Crisp, left, pitted against the state's young bachelor governor,

Richard B. Russell, for the Democratic senatorial nomination. The primary, Sept. 14, will decide which one will serve the unexpired term of the late Senator William J. Harris. John S. Cohen, Atlanta editor, was appointed to fill the term until the election.

### Old Sailing Ships Disappear From Northwest Coast

(International News Service)

PORTLAND, Ore., Aug. 18.—With not one sailing ship on active duty seen on the Columbia river since the first of the year, old salts here are resigned to the certainty that the windjammer is virtually gone for good in Northwest waters.

On the river, the schooner North Bend is not employed. Three years ago it went ashore on Peacock spit

and was believed tied up forever. Slowly it worked its way farther and father into the sand. Amazingly one day, it started back again and "walked" for a mile through the spit and fishing grounds to refloat itself. But it never was used again.

The William Taylor has been lying in harbor since January 2, 1924. The Sir Thomas J. Lipton was tied up the same year. The K. V. Cruise of the Coos Bay fleet has been laid up in Astoria since 1928.

Save for the schooners Commodore and Vigilant, which find some lumber business between Puget Sound or Grays harbor and Hanoi, there are no "active" ships left.

### Judge Decides Singer Connived In Insurance Plot

(International News Service)

DENVER, Aug. 18.—Suit of a daughter against her father for \$10,000 damages for injuries incurred in an automobile accident was part of a plan to defraud an insurance company, Judge James C. Starkweather recently ruled in a decision handed down in Denver district court.

Miss Sylvia Bagley, widely known Denver singer, won a judgement against her father, Samuel Bagley, Denver organist, for \$10,000 last year. The judgment was based on Miss Bagley's claim that she was riding in the automobile her father was driving when she incurred injuries in an accident.

Bagley then sued the Lumberman's Mutual Casualty company for \$5,000, the amount of his policy.

Judge Starkweather declared Bagley had connived with his daughter to enable her to obtain the judgment against him and failed to cooperate with the insurance firm to defend the action and held this asserted attempt to defraud the insurance firm barred him from collecting on the policy.

#### VERY BORING

A nervous old gentleman called in his physician to recite his ailments. "And what is your principal trouble?" asked the doctor, after the examination. "Well, doctor, I talk to myself; my lips move and I say things."

The doctor eyed him in a cheery manner and said: "That not at all serious, my good man."

"I know, doctor, but you don't realize what a tiresome fellow I am."

## Magic Of A Name Gets Nomination For Instructor

"Will Rogers" Expects To Go  
From School Room  
To Congress

(International News Service)  
OKLAHOMA CITY, Okla., Aug. 18.—The magic of a name—Will Rogers—is expected to catapult a 32-year-old school teacher from his classroom to the halls of Congress.

Will Rogers, Moore schoolmaster, not the Claremore cowboy humorist, so politically unknown that official counters in the Oklahoma primary election at first ignored his vote, received the Democratic nomination for congressman-at-large by a majority of more than 100,000 over his more renowned opponent, Mrs. Mabel Bassett, state charities commissioner.

With the Democratic nomination in Oklahoma regarded as tantamount to election, Rogers is considered by political leaders as virtually elected—gaining major office in his first venture on the political seas.

But the schoolmaster's bed of roses was not without its thorns. Amazed at the vote polled by the novice, his opponents sought to have his candidacy declared illegal on the ground he was "accepting a vote under misrepresentation." Then came the allegations that he was capitalizing on the fame of his fellow Oklahoman and namesake—Will Rogers of stage, radio and movie fame.

It was charged that the candidate should have his name listed on the ballot as William C. Rogers. "My name's been Will for years," Rogers retorted.

Finally it was agreed that the candidate should be permitted to run on his name as originally filed. With the announced recommendation of Will Rogers, the humorist, and Gov. W. H. "Alfalfa Bill" Murray, and the attending newspaper publicity, Rogers scored a landslide victory.

Rogers has no platform. "Platforms," he said, "are not made to stand on but to step up on."

## PULLED STATE FROM DRY COLUMN

Robert Rice Reynolds, Asheville, N. C., attorney, shown here with his wife, is the first wet candidate for the U. S. senate nominated by the Democratic party in North Carolina since prohibition swept

## Lonely And Silent, Capone Toils In Prison Tailor Shop

By ROBERT G. NIXON  
International News Service Staff  
Correspondent

ATLANTA, Ga., Aug. 18.—Al Capone, the deposed emperor of gangland, who once divided his time between his throne in Chicago and his winter palace in Florida, toils patiently these days in the tailor shop at the Atlanta federal penitentiary making rough prison garments.

A lonely, silent man, the one-time boss of beer and booze stands aloof from all but compulsory penitentiary duties.

These were among the items of

information concerning the toppled chieftain learned by International News Service from an authoritative source in spite of the secrecy surrounding the activities of Uncle Sam's "big house."

After his month in prison, Capone has the pale appearance which confinement usually brings. Fat and soft from a life of luxurious ease when he entered the penitentiary, he has lost about 10 pounds under the rigorous prison routine.

During the hours of recreation, when the convicts are permitted to mingle, he takes little or no part in the games.

Walks in the prison yard, usually alone, comprise his single recreative pursuit.

Despite his aloofness, he is described by his fellow convicts as a "right guy."

Capone's attitude was described as that of resignation rather than submission, and his spirit remains unbroken, according to the informant.

His behavior has been termed by prison officials as excellent.

Capone is serving a 10-year sentence for a federal income tax evasion conviction. He also is under sentence to serve one year in the Cook County jail at Chicago.

## Denver Policemen Put On Active Duty

(International News Service)  
DENVER, Col., Aug. 18.—Chief of Police Albert T. Clark believes the place for a good policeman is on the street.

Recent changes in the methods used by the Denver police department have resulted in a larger portion of policemen being on active duty than ever before.

"Not that we're increasing the number of men on the force," Chief Clark said "but in changing the details every man available goes out on active duty; only the absolute minimum number of policemen will be retained behind desks in substations and at headquarters."

Probably the most important change made by the Denver police department recently was the adoption of police radio cars. For 24 hours every day there are 23 patrol cars and five cruising cars on duty. These cars are in constant touch with headquarters by radio.

## Link China With U. S. By Radio Telephone

(International News Service)  
SHANGHAI, Aug. 18.—China and the United States will be linked by direct radio telephone service in the near future, in accordance with an agreement concluded by an American company and the Chinese Ministry of Communications.

The contract provides for the erection of four radio-telephone transmitting and receiving stations for long-distance service in strategic cities in China, and one large power station at Shanghai for international service, bringing the more than 100,000 telephones in China into connection with the rest of the world. The American connection will be made through the facilities of the American company in California.

### WAD OF PAPER KILLS

### METAL THROATED MAN

(International News Service)  
DETROIT, Aug. 18.—One of the strangest deaths recorded here in recent years was that of William White, 55, who died of strangulation when paper became wedged in his mental throat.

For ten years White had breathed through a silver tube, placed in his neck following an attack of diphtheria. As a sort of palate over the mouth of the tube, to keep out dust, he wore a paper diaphragm.

The diaphragm slipped into the "throat" and clogged it. He died a few hours later.

## Cubs Win In 19th Inning

Cubs And Boston Braves Play Longest Game Of Season At Chicago

### PIRATES LOSE TO BROOKLYN

By LES CONKLIN  
International News Service Sports Writer

NEW YORK, Aug. 18.—If it comes down to a question of gameness, the Chicago Cubs deserve to win the National League Pennant. They looked like real champions yesterday in nailing out Boston, 3 to 2, in a 19-inning marathon, the longest major league game of the season.

In the nineteenth, a 2 to 2 tie that had existed since the seventh frame was shattered on only one hit when Herman singled, took second as English was hit by a pitched ball, went to third on a sacrifice and scored on a fly by the rookie, Demaree, to pinch hit.

No errors made.

Not an error was made during the marathon. Jordan and Grimm, the rival first basemen, had 22 and 21 putouts, respectively.

Frankhouse, who had held the Cubs scoreless from the seventh inning, was replaced by Pruett as the Boston pitcher when Demaree, the last batter, strode to the plate.

For the Cubs, Bud Tinning pitched scoreless ball from the sixth inning to the eighteenth, when he was lifted for a pinch hitter and was replaced by Guy Bush.

Jumping Joe Stripp drove in three runs, two of them in a winning eighth inning rally, as Brooklyn downed Pittsburgh 4 to 1. The Dodgers now are only half a game behind the second-place Pirates.

Manager Bill Terry showed the hired hands on the Giants how to hit by clouting his 24th homer, two doubles and two singles as Jim Mooney blanked Cincinnati with four hits, 8 to 0.

The Cardinals and Phillies were washed out.

Ruth Hits Homer.

In the American League the Yankees beat Detroit for the third time in a row, 8 to 3, for their tenth consecutive victory, their longest winning streak of the season. Babe Ruth hit his 34th homer.

The Athletics regained second place from Cleveland with the peerless Lefty Grove blanking the Indians 11 to 0 for his 18th win.

The lanky southpaw held Cleveland to four hits while the A's knocked the mighty Wes Ferrell loose from his shoestrings.

Dale Alexander drove in four runs with a homer and two singles as the Red Sox took the Browns into camp, 7 to 3.

The loss streak of the White Sox reached eight straight as the pals had dropped a 4 to 2 decision to Washington.

### George Trainor Qualifies For Amateur Title

George M. Trainor, New Castle Field Club, Among Low Men At South Hills

(International News Service)

PITTSBURGH, Aug. 18.—The first and second rounds of match play in the 32nd annual western Pennsylvania amateur golf championship tournament, which opened with an 18-hole qualifying test at the South Hills Country Club here yesterday, will be disposed of today.

About 200 simon-pure golfers from throughout the tri-state area teed off in the qualifying round, and 80 of this number equalled or bettered the requirements, which permits them to continue in quest of the title.

Medal honors were taken down by J. Denny St. Clair, Indiana, the defending champion, with an aggregate of 72, one over par. Maurice Lebosquet and Richard Boucek, both Pittsburghers, tied for second place with rounds of 73.

Third place was won by G. M. Trainor, New Castle, who went around the stretch in 74. Eleven others were in the championship flight with cards of 78 or less.

When R. W. Smith, Greensburg, who toured the course in 78, withdrew, a quartet of entries who registered 78's had to play off for the odd place in the select division.

The remainder of the survivors were slightly over the championship limit, which was fixed at 79.

Trainor is paired against Dr. J. W. Stanger of Highland Country Club, Pittsburgh, today in the first round of the championship flight. Trainor was three over par for the tricky layout. His card:

## SEVENTH WARD NEWS

## Registration Of Clothing Menders

Working plans were tentatively mapped out last night by a group of Seventh ward ladies for handling the clothing situation among the ward's needy school children next winter. The volunteer workers are determined that no child shall be kept from classrooms for lack of such.

Meeting in the home of Mrs. Richard E. Gwilym, 315 West Madison avenue, nine women heard Secretary Orville Potter of the local Red Cross and Mrs. DeGraff Pearson, leader in civic affairs, discuss the objective which had brought the ladies together.

After the talks which told of the uptown plans, the delegation enthusiastically pledged itself to sponsor a movement among the Seventh ward women for sewing and mending clothing for the children when winter comes.

The group secured the co-operation of Superintendent of Schools C. C. Green, and for three days next week there will be registrations conducted at the Mahoning school building in an effort to enlist the general support of mothers and others who care to volunteer.

Monday, Tuesday and Wednesday will be the three days on which the ladies will be asked to register, each day between the hours of 10 to 12 o'clock in the morning and 2 to 4 o'clock in the afternoon.

Announcements of the movement will be made from the pulpit of every Seventh ward church.

"We are determined to keep every child in clothing during the school months," Mrs. Gwilym related. "The ladies are eagerly volunteering their support, and there's no question but what the ward's needy youngsters will have sufficient clothing for use in the winter."

A special committee of women has been delegated to handle next week's registration.

The theater walking stick is quite the swankiest thing in London's jewelry circles. One displayed in Bond street was made of polished ebony with the handle set all over with semi-precious stones. A small electric bulb hidden in the handle among the jewels enables the owner to read the theater program in the darkened house.

Our guess is that Mr. Roosevelt's fate will depend on the number of silent voters who classify beer as rum.

Utilities Come To Rescue Of Faltering Market Shortly After Opening Today

## RAILS LEADERS SAG SOMEWHAT

(International News Service)  
NEW YORK, Aug. 18.—The utilities came to the support of the stock market today as prices went 1 to 2 points lower in early profit taking.

The rails sagged and leaders like U. S. Steel and Telephone were eased. Utility stocks, however, resisted the selling. Consolidated Gas was in persistent demand at high prices and snapped back 2 points when the pressure on the market lifted. The other power and light stocks followed and their example brought rallying tendencies in the entire list, wiping out early losses and substituting gains.

Commodities failed to provide any stimulus. Wheat and corn were steady while cotton was lower. Silver, coffee and rubber were dull and inclined to sag. Bonds were firm with the exception of amusement issues, which were lower.

Trading in stocks was only a fraction of the turnover of recent sessions volume showed a tendency to pick up on the rally.

The market held fractional gains entering the second hour but showed now carry-through. Telephone was up a point and Auburn 2 points at one time but gave up part of their gains.

## Police Raid Spoils Elegant Party Set Up For "Paid" Slayers

By QUENTIN REYNOLDS  
International News Service Staff  
Correspondent

NEW YORK, Aug. 18.—It was going to be a swell dinner. The groceries would be excellent and as for the drinks—in addition to whiskey, gin and beer, cases of Chianti, Muscato, Lachryma De Christi and French champagne, were already stored in a suite upstairs. There were bottles of Biscuit De Boucher and for those who liked the robust tastes of Absinthe, Pernod Fils was available.

The climax of the dinner was to come when the toastmaster arose with a smile and looking at the twenty men present, honored two of them. "Each of you will now receive a prize of five grand for your

good work in planting that heel from Pittsburgh—John Bazzano. You done good work and the organization is proud of you. Give 'em a hand boys."

### Wine And Women.

The two honored guests were then to come forward to receive five bills of a thousand dollars each. Then the celebration was to continue with wine running freely and a bevy of girls to help cheer up these tired business men who were honoring two of their number.

But now the Belle Plaiso and the Camembert is willing and the wine is waiting forlornly. The lasagne and the veal spirit of good fellowship which was to fill the hotel has been replaced by the truculence of the police.

## Paid Newspaper Subscription By Delivery Of Pork

Way Back In 1829, Money  
Was Apparently More  
Scarce Than Now

W. F. Bowman of Butler avenue extension, is the owner of a little scrap of paper, which itself may not have much value, but is so unusual that it is well worth the trouble of keeping it.

It is a receipt issued to one David Findley on December 25, 1829, by William Stewart, evidently the owner and publisher of the Butler Sentinel, a newspaper publication of those days.

The receipt goes on to read "Received the 25th of December, 1829, of Mr. David Findley, two hundred and eighty-two pounds of pork at 3 cents a pound, amounting to eight dollars and forty-six cents in payment of his subscription to the Butler Sentinel. Signed, William Stewart."

Apparently in those days, it was not an uncommon practice to pay for the newspaper in this manner. The receipt gives no intimation as to how long a time the payment covered, but it was evidently for several years.

While the receipt has turned yellow with age, the writing is perfectly legible.

## Much Needed Rain Falls During Night

Several Rural Districts Which  
Have Been Missed By  
Storms Benefited

Rain, which has been badly needed in several of the rural districts of the county, fell last night and this morning. Indications early today pointed to a continuance of the downpour.

Some of the farmers in certain sections of the county, particularly the northeast section in the upper end of Plaingrove, state that the summer has been an unusually dry one for them, only a few of the rains which were general elsewhere hitting them.

In the local community rain was also badly needed, lawns and gardens being well dried out. A light shower was noted here a week ago, but merely wet the surface of the ground. An all day rain would be very beneficial.

Heretofore no firing has been done locally with the machine rifle, but some of the men who were at Mt. Gretna failed to qualify with the new weapon because of other duties at camp.

They were given an opportunity to fire on the range here this week.

Preparations are being made to hold intensive drill on Sunday afternoon and Monday evenings at the drill field. The equipment has been put in good condition following the return of the troop from camp, an appropriation to clean the equipment having been allotted the troop.

## FINGERPRINTS IN FILES OF BUREAU AID POLICE WORK

HARRISBURG, Aug. 18.—Of the 1707 sets of fingerprints submitted to the State Police bureau of criminal identification during July, 410, or 24 per cent, were identified as having previously been in custody on other criminal charges. The bureau, in keeping with the practice followed by all similar bureaus, furnished all officials previously interested in each individual with his criminal history to date.

During the month, four persons much sought by police officials, were arrested under other names for other crimes, and were identified by their fingerprints on file in the bureau.

## CARELESSNESS IS ACCIDENT CAUSE

HARRISBURG, Aug. 18.—Carelessness on the part of the pedestrian is no excuse for carelessness on the part of the motor vehicle operator, according to Walter W. Matthews, director of the safety division of the Bureau of Highway Patrol and Safety.

Matthews was referring to the careless indifference of many pedes-

trians in crossing streets and to the carelessness of some drivers when approaching pedestrians. The safe plan, he said, is to give the pedestrian the right of way even though he is violating every precept of safety. The safe rule for motorists to follow, he asserted is that the pedestrian is always right.

## STALE GAS IS FEEBLE—FRESH GAS PACKS POWER

WHAT? Such a thing as "stale" gasoline? Absolutely. Think about it a minute and you'll see why.

Gasoline evaporates. The most volatile parts—important "easy starting" elements—slowly float off into thin air. A chemical change occurs, too. So that the longer gas is stored, the more important power elements it loses!—the feebleness it gets.

Another thing. When gas is stored too long, sticky compounds form. Those sticky compounds foul your motor—may clog valves and carburetor. And stale gas knocks more, too—particularly on hills.

Those are the reasons why refiners have tried to stop the deterioration of gasoline. Those are the reasons why Gulf is pleased to announce a system that assures you of getting FRESH-MADE gasoline. Here's how...

Gulf makes the best gasoline that can be produced—and takes out certain complex elements which have been found to cause rapid deterioration. Hence, Gulf gas stays FRESH longer.

And Gulf has geared up its distribution system to rush this FRESH-MADE gas to you like some perishable food!

We have placed huge refineries in many sections of the country—so that every Gulf filling station is close to a source of FRESH gasoline. A huge fleet of trucks speeds FRESH gas to Gulf stations every day.

Get 100 cents worth of power from your gasoline dollar. Get FRESH gasoline with FRESH, full power. Get Gulf. Use nothing else—and have a cleaner, quieter, faster motor.
